Circular No. (3/2010)

Banking System Regulation and Development Department
circulars

Addressed to all Banks,

Assalamu Alaikum Warahmatullahi Wabarakatuhu,

Subject :Priority Sectors in the States

Based on the Central Bank of Sudan policies for year 2010 and issued on December 28, 2009 and it's the first chapter, first item: monetary and financial policies and to the paragraph concerning with the use of resources- As you know the economic activity in Sudan varies according to climate, economic and environmental conditions as a result the production sectors influenced by this variation, and it is for the organization of and employment of finance operations for purposes of economic development the Central Bank of Sudan, taking into account the nature of economic activity prevailing in the state and its dependence on each sectors in the development due to the priority and set of programs and plans in the state strategy. And the banks when

dealing with customers shall be guided with the priority sector ranking according to the requirements of each state.

In this context your branches can choose to deal with states in the following priority sectors:-

First: the agricultural sector

Includes plant and animal production, breeding and production of fish, infrastructure projects, supporting research and its related industries, the establishment and management of warehouses, and silos

Second: the industrial sector

Includes small, modern, manufacturing and heavy industries.

Third: Exports sector :

This includes the production of goods and services for the purposes of non-oil exports.

Forth: The tourism sector

This includes the preparation of studies and establishment of hotels and tourist villages, resorts and projects that aim to develop the sector in general.

Fifth: The border trade

Include imports and exports in the border areas.

Sixth: The sector of Artisans

Includes the development and sponsorship of handicrafts , and the preparation of assisted studies and programs.

Seventh: The real-estate sector

Includes the design and construction of residential complexes (except land purchase), supporting industries such as cement, bricks and blocks.
